## INTRODUCTION

The FY25 (July 1, 2024 to June 30, 2025) edition of Iowa Public Library Statistics includes information on income, expenditures, collections, circulation, staff, and several other measures. Each section is arranged by size code, then alphabetically by city. The totals, averages, and percentiles for each size code grouping are given immediately following the alphabetical listings.

The following table lists the size code designations, the municipal range in each size code, the number of libraries reporting in each size code, and the total population of the reporting libraries in each size code. The total population served by the 543 libraries is 2,502,732 according to the 2020 Census. (The 2020 decennial population data is used to determine per capita figures throughout the publication.)

Library size codes are based on the population of the city that the library was established to serve. Population figures are from the 2020 Census or most current special census. County library populations are based on rural county population and contractual agreements.

Of the 543 public libraries in Iowa, 513 submitted an annual survey for FY25. Only those public libraries that submitted a verified annual survey will be included in this report. The table of size codes (pages 5-6) lists the public libraries alphabetically. The data elements and definitions used to collect the information in this document are taken from the [Public Library General Information Survey](#)

## SUMMARY

Public library statistics are used at the local, regional, state, and national levels. They are used to compare library performance, justify budget requests, track library data over time, assist in planning and evaluation, and provide valuable information for grants and other library programs. All 50 states collect information according to guidelines and definitions established by the Public Library Statistics Cooperative (PLSC). The rankings below include all 50 states, the District of Columbia, and the five inhabited US territories.

The PLSC provides state-by-state rankings for public libraries. In FY23, the latest national data available, Iowa public libraries ranked as follows in comparison with other states. In FY25 Iowa had 543 independent public libraries which ranked 4<sup>th</sup> nationally behind New York, Illinois, and Texas.

(Per Capita)	Iowa's FY23 Rank	Iowa Per Capita	National Per Capita	Iowa's FY20 Rank
Library Visits	6	3.78	2.47	7

# Iowa Public Library Statistics FY25:

# INCOME

---

The income section includes revenue from all government sources for FY25. It also includes non-governmental revenue such as gifts or endowments.

Library per capita income is included from city and total sources. County per capita income is used for county libraries rather than city per capita income.

Per capita income is determined by taking the library's income and dividing it by the city's population for city public libraries and service area population for county public libraries.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. County public libraries are listed as size code I. To determine the size code of a library, refer to the table on pages 5-6.

# Iowa Public Library Statistics FY25: **EXPENDITURES**

---

The expenditures section includes spending on library operations in various categories including staff and collections. It also includes other operational expenditures such as equipment, utilities, and building maintenance.

Total per capita expenditure is included. Per capita expenditure is determined by taking the library's expenditures and dividing it by the population of the city, or county in the case of the three county libraries.

Capital expenditure amounts are separate totals and not included in the "Total Expenditures" or "Per Capita Expenditures" amounts.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.

# Iowa Public Library Statistics FY25: COLLECTIONS

---

The Collections section lists the number of total items available for use as of June 30, 2025.

Library collections include physical items such as:

- Print – books
- Audio – records, tapes, CDs
- Video – videocassettes, DVDs, Blu-Ray discs
- Other materials such as puppets or toys.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.

# Iowa Public Library Statistics FY25: LIBRARY TRANSACTIONS

---

The Library Transactions section shows the use of library materials and other resources as follows:

- Circulation – counts the use of physical and downloadable materials including renewals.
- Interlibrary Loan (ILL) – counts the transactions when one library borrows from another library. The counts shown are:
  - ILL items provided to other libraries
  - ILL items received from other libraries
- Registered Users – counts the number of registered library customers.
- DL – Downloadable material.
- Physical materials.
- Mag – Serials – magazines, periodicals, etc.
- DB – Licensed database use and use of other electronic resources.
- Total Circulation (Physical & Downloadable) most closely corresponds to total circulation from previous years' reports. Does not include database use.
- Per Capita – is figured by dividing total circulation by city population (or county population in the case of county libraries).

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.

# Iowa Public Library Statistics FY25: **SERVICES**

---

This section includes information about:

- Visits (also called door count)
- Public Internet computer use
- Average weekly hours open including branches
- Number of annual wireless sessions and website visits
- Square footage of library buildings including branches

Branches are listed directly beneath their main library listing. Total and average information includes branch data for open hours and square footage.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.

# Iowa Public Library Statistics FY25: PROGRAMS AND ACTIVITIES PART 2

---

The continuation of the Programs and Activities section brings in new data elements. The first part of the table includes totals for onsite, offsite, and virtual. These categories are also part of the age categories listed in Part 1. For example, the young adult category in Part 1 includes the counts for onsite, offsite, and virtual. To save space on the table, programs and attendance are shortened to Prog and Attend.

- Onsite programs and attendance
- Offsite programs and attendance
- Virtual programs and attendance

The second part of the table covers the new Patron Directed Activities section from the survey. These activities are not counted in the programming section and there are no totals. The new categories are:

- Total number of Make and Take kits provided
- Total number of Coloring Sheets provided
- Total use of the library's Maker Space service
- Total use of STEAM/STEM services
- Total number of Scavenger Hunt participants
- Total number of Trivia Contest participants
- Total number of Story Walk participants
- Total number of Reading Log participants

# Iowa Public Library Statistics FY25: **WAGES & FTE**

---

This section includes information about:

- Hourly wages for director, assistant director, department heads, children’s librarian, clerks, shelvers, and janitorial staff.
  - If more than one person serves a position, an average is given.
- Number of staff and FTE.
  - To save space, the word librarian is abbreviated as Lib.

For this survey, 40 hours worked per week has been set as the measure of FTE (Full Time Equivalent). For example, two employees who work a total of 60 hours per week are divided by the 40-hour measure, which equals 1.50 FTEs.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.
